

Launch your business, not an IT department.

Leave the tech to us.

Your website, business email, phones, CRM, marketing and security, all built, connected and managed by one team.

Everything you need to open the doors online

Six business essentials in one managed package, built by a Maryland cybersecurity firm.

- ✓ **Custom website**
A professional site built for your business, on its own hardened cloud server.
- ✓ **Business email**
Up to 5 accounts, plus shared addresses like info@, all managed in one place.
- ✓ **Business phones**
A cloud phone system with local numbers, apps, voicemail, call logs and transcribed calls.
- ✓ **Custom CRM + AI**
Track customers, leads and prospects in a CRM wired into your phones, email and AI chat, with summaries and follow-ups.
- ✓ **Marketing + SEO**
A search-ready launch, then ongoing SEO and marketing to help you get found and grow.
- ✓ **Security + support**
Single sign-on, secure hosting, backups, monitoring and patching, plus ongoing support.

One team.

One number to call.

One bill.

Predictable annual cost.

One job for you.

Focus on customers.

First year

\$15,000

We build it all and run it.

Every year after

\$10,000/year

We keep it all running.

Built for brand-new businesses. Best fit when you're starting fresh, with no website, company email or phone system to migrate.

Ready to launch?

Let CybPro build the business foundation while you build the business.
